Continuously Improve Program
Continuous Improvement Efforts since Last Report

Provide a brief description of how assessment results have been used for program improvement. Point to a specific example of how an assessment provided the program with data that could use for improvement and what that improvement was, if possible, also show evidence of the improvement. You may look at data from the two previous academic years to support this case.

Improvement: A new case-study was added in CE 4111 (Professional Seminar) to help students further analyze ethical and professional responsibilities and address these issues.
